

PART 11

SPECIFIC USE REGULATIONS

Section 1101. Applicability.

- A. In addition to the general provisions that are established in Parts 3 through 5 of this Chapter for principal, accessory, or temporary uses, buildings, and structures within a particular zoning district; the additional general provisions for uses, buildings, and structures established in the Part 7 and elsewhere in the Chapter and Part 6 of this Chapter relating to *FST Overlay Zoning District (FSTO)* this Part sets forth the specific standards and supplemental regulations that shall be applied to every principal, accessory, and temporary use identified herein. These specific use standards and supplemental regulations must be satisfied prior to approval of any application for a zoning permit, building permit, occupancy permit, temporary permit, special exception, or conditional use. The applicant shall be required to demonstrate compliance with these standards and regulations and must furnish whatever evidence is necessary to demonstrate such compliance.
- B. All principal, accessory, or temporary uses subsequently identified in this Part, must comply with the general provisions for uses within a particular zoning district in which the use is to be located, unless different standards are established in Parts 3 through 5, and 6 of this Chapter; in which case, the more restrictive shall apply.
- C. For uses that are permitted within a specific zoning district as conditional uses or special exceptions, see also the procedures and standards in Part 12 of this Chapter.

Section 1102. Additional Supplemental Standards and Requirements for Specific Principal Residential Uses.

- A. Apartment Conversions: Apartment conversions are permitted subject to the following criteria:
 1. The building must be a single family detached dwelling that existed on the effective date of this Chapter, and contained at that time, at least two thousand (2,000) square feet of habitable floor area. Additionally, the gross floor area, building footprint, and building height that existed on the effective date of this Chapter shall not be increased to accommodate the proposed apartment conversion.
 2. All apartment conversions shall comply with the maximum density, minimum net lot area per unit, and all other area and design requirements for the applicable use in the applicable zoning district (e.g., an apartment conversion resulting in not more than two (2) total dwelling units [including the original dwelling unit], then two (2) family detached dwelling area and design requirements apply; an apartment conversion resulting in not more than three (3) or more total dwelling units [including the original dwelling unit], then multi-family dwelling area and design requirements apply).
 3. All principal buildings permitted as part of an apartment conversion use shall maintain an exterior appearance that resembles and is compatible with any existing dwelling on the lot and in the neighborhood. No modifications to the external appearance of the building, except fire and safety requirements, which would alter its residential character, shall be permitted.
 4. Fire escapes, where required, shall be located in the rear or side (in order of preference) of the building and shall not be located on any wall facing a street right-of-way, excluding alleys.

 7. No material may be stored or stacked so that it is visible from abutting properties or adjoining street rights-of-way.
 8. No material shall be burned or incinerated at any time.
 9. No automotive wrecking, junk, scrap storage and sales establishments shall be located on land with a slope in excess of five (5) percent.
 10. All vehicles within the automotive wrecking, junk, scrap storage and sales establishments shall be completely drained of fuel, lubricants, battery fluid, transmission fluid, brake fluids, coolants, and air conditioning fluids.
- B. Mineral Extraction: Mineral extraction is permitted subject to the following criteria:
1. All areas of excavation shall be set back from property that is not owned by the owner or operator of the mineral extraction use at least:
 - a. One hundred (100) feet from existing public street rights-of-way and from all exterior lot lines of the property.
 - b. One hundred fifty (150) feet from commercial or industrial uses, unless the owner of the abutting lot and building has provided notarized, written consent.
 - c. One hundred fifty (150) feet from any abutting lot line of any existing publicly owned recreation area.
 - d. Two hundred fifty (250) feet from any adjacent property in the Residential Zoning Districts or existing residential use in the Mixed Use Zoning Districts.
 2. In addition to screening and buffering requirements set forth in Part 7 of this Chapter relating to *Buffer and Screening Regulations*, except as provided herein, the site shall be surrounded by a seventy-five (75) foot buffer yard, and a fence or wall at least six (6) feet in height shall be provided along all exterior lot lines that are within two hundred fifty (250) feet of an area of

excavation and provide with screening of not less than one hundred (100) percent opacity. Any gate in a fence shall be similarly constructed and maintained and shall be kept securely locked at all times when the establishment is not in operation.

3. In addition to any requirements in Part 9 of this Chapter and/or Chapter 22 relating to subdivision and land development, all access drives serving the site shall have a paved minimum thirty-five (35) foot wide cartway for a distance of at least two hundred (200) feet from the intersecting street right-of-way line. In addition, a fifty (50) foot-long gravel section of access drive should be placed just beyond the preceding two hundred (200) foot paved section to help collect any mud that may have attached to a vehicle's wheels.
4. Warning signs shall be placed at intervals of not less than one hundred (100) feet along all exterior lot lines that are within two hundred fifty (250) feet of an area of excavation.
5. Any new operation or expansion of an existing mineral extraction establishment shall not be approved by the Borough until a Soil Erosion and Sedimentation control plan has been prepared, and found to be satisfactory by the County Conservation District.
6. A copy of all site plan information required by the state DEP shall also be submitted to the Borough as part of the application.
7. A detailed and appropriate land reclamation and reuse plan of the area to be excavated shall be submitted to the Borough.
8. After areas are used for mineral extraction, those areas shall be reclaimed in phases to a nonhazardous and environmentally sound state to enable some productive or beneficial future use.

Section 1105. Additional Supplemental Standards and Requirements for Specific Principal Institutional / Civic Uses.

- A. Cemetery: Cemeteries are permitted subject to the following criteria:
1. The total impervious lot coverage shall not exceed ten (10) percent of the lot area.
 2. All burial plots and all structures shall be located at least twenty five (25) feet from any lot line or street right-of-way line.
 3. No burial plot shall be permitted in any floodway or flood fringe as provided for Part 6 of this Chapter relating to *Floodplain Overlay Zoning District (FPO)*.
 4. Where permitted, any materials not within completely enclosed buildings shall in addition to the requirements set forth in Part 7 of this Chapter relating to *Buffer and Screening Regulations*, be surrounded by a fence or wall at least six (6) feet in height, and provided with screening of not less than eighty (80) percent opacity.
 5. The owner(s) and operator(s) of a cemetery shall incorporate Best Managements Practices as outlined in the Pennsylvania Handbook of Best Management Practices for Developing Areas to minimize negative impacts of erosion, siltation and surface water and groundwater contamination.
 6. At no time shall a corpse be exposed or visible from a public right-of-way or adjacent property.

1. Where permitted, all outdoor recreation and activity areas shall be set back at least fifty (50) feet from any lot line.
 2. No sign shall advertising the sale of food and/or beverages shall be permitted.
- C. Continuing Care Retirement Community Facility: Continuing care retirement community facilities are permitted subject to the following criteria:
1. Whenever a party or parties seeks to establish a continuing care retirement facility, the party or parties shall file a detailed statement of intent with the Borough describing the proposed use and development of the lot. Such statement shall detail the proposed number and nature of the anticipated occupants and uses. The statement shall identify how said use satisfies a demonstrated need and how it will be conducted in a responsible manner without detriment to surrounding properties and neighborhood.
 2. The continuing care retirement community facility is designed primarily for persons aged fifty five (55) and over.
 3. The continuing care retirement community facility shall be directly affiliated with a parent institution or organization, which shall provide full-time supervision and administration of the residents of the continuing care retirement community facility.
 4. The following uses shall be permitted as principal uses within a continuing care retirement community facility.
 - a. Residential uses:
 - (1). Single family attached dwellings.
 - (2). Single family detached dwellings.
 - (3). Single family semi-detached
 - (4). Two family detached dwellings.
 - (5). Multi-family dwellings.
 - b. Institutional / Civic uses:
 - (1). Parks and other outdoor non-commercial recreational uses.
 - (2). Libraries and community activity buildings.
 - (3). Indoor recreation uses and structures.
 - (4). Post office.

- (5). Places of worship.
 - (6). Long-term care nursing centers.
 - (7). Personal care centers.
5. The following uses shall be permitted as accessory uses in the continuing care retirement community facility for the use of residents and guests:
 - a. Accessory uses:
 - (1). Daycare facilities.
 - (2). Medical offices and clinics.
 - (3). Common dining facilities.
 - (4). Indoor recreation facilities.
 - (5). Banks.
 - (6). Food services.
 - (7). Retail businesses.
 - (8). Personal services.
 - (9). Restaurants, no drive in or drive thru facilities permitted.
 - b. Each accessory use shall be located in a building occupied by residential uses or in a community activities building.
 - c. Each accessory commercial use shall not exceed two thousand five hundred (2,500) square feet of net floor area.
 - d. The total area reserved of accessory commercial uses shall not exceed four (4) percent of the total gross land area of the original tract/lot, or no more than twenty five thousand (25,000) square feet, whichever is less.
6. Continuing care retirement communities shall meet the following area, density, impervious lot coverage, and setback requirements:
 - a. The maximum density shall be twelve (12) units per acre.
 - b. The maximum impervious lot coverage shall be sixty (60) percent.
 - c. The minimum vegetative coverage shall be forty (40) percent.
 - d. No building shall be within twenty-five (25) feet of the lot or property line of the continuing care retirement community, or within thirty-five (35) feet of a public street right-of-way.

Wormleysburg Borough Zoning Ordinance
Adopted – January 8, 2013

PART 11-17

Specific Use Regulations

- e. In instances where there is more than one (1) building on a single lot, the following minimum building separation requirements shall apply:

- (1). Front to front: Seventy (70) feet.
- (2). Front to side: Fifty (50) feet.
- (3). Front to rear: Forty (40) feet.
- (4). Side to rear: Twenty (20) feet.
- (5). Side to side: Fifteen (15) feet.
- (6). Rear to rear: Thirty (30) feet.
- (7). Corner to corner: Twenty (20) feet.

- f. Staging of development. When the continuing care retirement community is to be developed in stages, the following criteria must be met:

- (1). The land development plan presented to the Borough must show the approximate location and type of use for each stage of the development.
- (2). If nonresidential uses will be a part of the development, the sequencing shall be shown so that not all residential development is constructed prior to the construction of the nonresidential development, unless the development involves an existing continuing care retirement community that already includes existing nonresidential components, in which case the staging requirement would not apply.

- C. Daycare, Commercial: Commercial daycares are permitted subject to the following criteria:

- 1. An outdoor play area for children shall be provided. Off street parking lots and areas shall not be used as outdoor play areas. Outdoor play areas shall not be located in the front yard between the principal building and the public street, excluding alleys. All outdoor play areas must provide a means of shade (e.g., shade tree[s] or pavilion[s]). Any vegetative materials located within outdoor play areas shall be of a non-harmful type (e.g., poisonous, thorny, allergenic, etc.).
 - a. Additionally, outdoor play areas abutting property in the Residential Zoning Districts or existing residential use in the Mixed Use Zoning Districts shall comply with the setback requirements for the principal use from any abutting property in the Residential Zoning Districts or existing residential use in the Mixed Use Zoning Districts and be provided with fence of at least four (4) feet in height and screened in accordance with Part 7 of this Chapter relating to *Buffer and Screening Regulations*. Outdoor play areas shall be limited to use between 8:00 a.m. and 8:00 p.m.

- D. Group Care Facility: Group care facilities are permitted subject to the following criteria:

- 1. Whenever a party or parties seeks to occupy a dwelling or other building as a group care facility, the party or parties shall file a detailed statement of intent with the Borough describing the proposed use of the dwelling or building. Such statement shall detail the proposed number and nature of the anticipated occupants. The statement shall identify how said use satisfies a

demonstrated need and shall be conducted in a responsible manner without detriment to surrounding properties and neighborhood.

2. No portion of a group care facility shall be located within five hundred (500) feet of another group care facility, group home facility, halfway house, and/or treatment center, and in no case shall more than one group care facility be located within the same block.
 3. A group care facility shall be directly affiliated with a parent institution or organization, which shall provide full-time supervision and administration to the residents of the group care facility.
 4. Under no circumstances shall any uses qualifying for or falling under the definition of a “halfway house” or “treatment center” be considered a group care facility.
- E. Hospital: Hospitals are permitted subject to the following criteria:
1. To the maximum extent feasible emergency entrances shall not be located or oriented directly toward any adjacent property in the Residential Zoning Districts or existing residential use in the Mixed Use Zoning Districts.
- F. Long Term Care Facility or Personal Care Facility: Long term care facilities or personal care facilities are permitted, subject to the following criteria:
1. Whenever a party or parties seeks to establish a long term care facility or personal care facility on a lot or occupy a dwelling or other building as a long term care facility or personal care facility, the party or parties shall file a detailed statement of intent with the Borough describing the proposed use and development of the lot or dwelling or building. Such statement shall detail the proposed number and nature of the anticipated occupants. The statement shall identify how said use satisfies a demonstrated need and shall be conducted in a responsible manner without detriment to surrounding properties and neighborhood.
 2. In addition to residential unit’s living and sleeping quarters with or without kitchen facilities, the following accessory uses may be provided for the use of residents and their guests:
 - a. Medical offices and clinics.
 - b. Common dining facilities.
 - c. Community gardens.
 - d. Parks and other non-commercial recreation uses.
 - e. Indoor recreation uses.
 - f. Daycare.
 - g. Bank.
 - h. Retail business.
 - i. Food services.
 - j. Personal services.

Section 1106. Additional Supplemental Standards and Requirements for Specific Principal Forestry / Agricultural Uses.

- A. Agricultural Operation: Agricultural operations are permitted subject to the following criteria:
1. The raising and/or keeping of livestock and poultry shall only be permitted in the GC Zoning District.
 - a. All areas utilized for grazing or pasture areas shall be fenced a minimum of ten (10) feet from all lot lines.
 - b. The applicant shall demonstrate that the methods of disposing of dead animals are in strict compliance with applicable standards established by PA DEP. Dead turkeys, chickens, or piglets shall be kept in airtight containers. Larger dead animals shall be kept in a manner so as to minimize the spread of odors and disease.
 2. Otherwise the following setbacks shall be required:
 - a. Except for dwellings and residential accessory use and structures which shall comply with the residential area and design requirements of applicable zoning district, all structures, except fences, shall have a minimum setback of fifty (50) feet.
 - b. Any manure storage facility shall be located in accordance with the building / structure setback requirements established by Act 38 of 2005 known as ACRE.
 3. The applicant shall demonstrate that the agricultural operation allows for the safe and efficient movement of all vehicles associated with the operation.
 4. The applicant shall demonstrate environmental impacts that are likely to be generated by surface water and stormwater run-off and specific measures employed to mitigate or eliminate any negative impacts, in accordance with Chapter 23 relating to stormwater management and approved by the Borough Engineer. At a minimum, surface water and stormwater run-off from the site shall be diverted away from adjacent properties and public rights-of-way, and shall not contaminate downstream watercourses. The applicant also shall further furnish evidence that the impacts generated by the proposed use fall within acceptable levels, as regulated by applicable laws and ordinance, including but not limited to those listed in Part 7 of this Chapter relating to *Performance Standards for All Uses*.
- B. Community Garden: Community gardens are permitted subject to the following criteria:
1. The following shall be permitted as part of a community garden:
 - a. Greenhouses, hoophouses, cold-frames, and similar structures used to extend the growing season.
 - b. Open space associated with and intended for use as garden areas.
 - c. Unless otherwise prohibited or regulated in Part 8 of this Chapter, signs limited to identification, information and directional signs, including sponsorship information where the sponsorship information is clearly secondary to other permitted information on any particular sign.

- d. Benches, bike racks, raised/accessible planting beds, compost bins, picnic tables, seasonal farm stands, fences, garden art, rain barrel systems, chicken coops limited to the GC Zoning District, beehives limited to the GC Zoning District, and children's play areas.
- e. Buildings, limited to tool or utility/storage sheds, shade pavilions, barns, restroom facilities with composting toilets, and planting preparation houses.
- f. Off-street parking and walkways.
- g. Uses and structures shall be developed and maintained in accordance with the following regulations.
 - (1). Location. Structures shall be set back at least five (5) feet from any abutting property in the Residential Zoning Districts or existing residential use in the Mixed Use Zoning Districts.
 - (2). Height. No building or other structure shall be greater than twenty-five (25) feet in height.
 - (3). Building Footprint. The combined area of all buildings, excluding greenhouses and hoopouses, shall not exceed fifteen (15) percent of the garden site lot area.
 - (4). Parking and Walkways. Off-street parking shall be required only for those garden sites exceeding fifteen thousand (15,000) square feet in lot area. In addition to the parking reduction and alternative accommodations (especially for drainage, surface, and maintenance) and provided for in Part 9 of this Chapter relating to relating to *Parking Reductions and Alterations*, such parking shall be limited in size to ten (10) percent of the garden site lot area and shall be graded for proper drainage and shall be improved with a durable and dustless surface (e.g., concrete or bituminous concrete unless an alternative material and/or design as part of a readily accepted stormwater BMP in accordance with Chapter 26 relating to water [stormwater management], Chapter 22 relating to subdivision and land development, or any other construction materials specifications adopted by the Borough) and approved by the Borough Engineer. Walkways shall be unpaved except as necessary to meet the needs of individuals with disabilities.
 - (5). Signs. Unless otherwise prohibited or regulated in Part 8 of this Chapter, signs shall not exceed four (4) square feet in area per side and shall not exceed four (4) feet in height, and shall otherwise comply with Part 8 of this Chapter.
 - (6). Seasonal Farm Stands. Seasonal farm stands shall be removed from the premises or stored inside a building on the premises during that time of the year when the garden is not open for public use.
- 2. The applicant shall demonstrate environmental impacts that are likely to be generated by surface water and stormwater run-off and specific measures employed to mitigate or eliminate any negative impacts, in accordance with Chapter 9 relating to grading and excavating, Chapter 26 relating to water (stormwater management), and approved by the Borough Engineer. The applicant also shall further furnish evidence that the impacts generated by the proposed use fall within acceptable levels, as regulated by applicable laws and ordinance, including but not limited to those listed in Part 7 of this Chapter relating to *Performance Standards for All Uses*.

- C. Forestry (Timber Harvesting): Forestry or commercial timber harvesting operations where the value of the trees, logs, or other timber products removed exceeds one thousand dollars (\$1,000), but excluding the cutting of trees for the personal use of the landowner or for pre-commercial timber stand improvement are permitted, subject to the following criteria:
1. All forestry and commercial timber harvesting operations shall comply with the following:
 - a. Timber harvesting practices shall protect nearby structures and utility lines.
 - b. Felling or skidding on or across any public street right-of-way is prohibited without the express written consent of the Borough or PennDOT, whichever is responsible for maintenance of the public street.
 - c. No tops or slash shall be left within twenty-five (25) feet of any public or private street right-of-way or easement (as applicable) providing access to abutting residential property.
 - d. All tops and slash shall be lopped to a maximum height of four (4) feet above the ground in the following circumstances:
 - (1). Between twenty-five (25) and fifty (50) feet from a public or private street right-of-way or easement (as applicable) providing access to adjacent residential property; and
 - (2). Within fifty (50) feet of an abutting residential property.
 - e. No tops or slash shall be left on or across any property line of any abutting property without the consent of the owner thereof.
 - f. Litter resulting from a timber harvesting operation shall be removed from the site before it is vacated by the operator.
 2. All applications for timber harvesting shall include the information required for approval pursuant to Part 12 of this Chapter relating to *Applications for Zoning Permits*. In addition, the applicant shall specify the land on which harvesting will occur, the expected size of the harvest area and, as applicable, the anticipated starting or completion date of the operation. This written notification shall also specify any roads affected, dates of affect, plans to restore any damages to roads and contact information for the logging operations submitted to owners abutting the street right-of-way used to access the logging site.
 3. Preparation of a Logging Plan. Every landowner on whose land timber harvesting is to occur shall prepare and submit a written logging plan as set forth herein this subsection below, and shall submit the logging plan as part of the information required for approval pursuant to Part 12 of this Chapter relating to *Applications for Zoning Permits*. The provisions of this plan shall be followed throughout the operation. The plan shall be available at the harvest site at all times during the operation and shall be provided to the Zoning Officer upon request.

PART 11-24

Specific Use Regulations

4. Responsibility for Compliance. The landowner and the operator shall be jointly and severally responsible for complying with the terms of the logging plan.
5. Contents of the Logging Plan.
 - a. As a minimum, the logging plan shall include the following:
 - (1). Design, construction, maintenance and retirement of the access system, including haul roads, skid roads, skid trails and landings.
 - (2). Design, construction and maintenance of water control measures and structures (e.g., culverts, broad-based dips, filter strips and water bars).
 - (3). Design, construction and maintenance of stream and wetland crossings.
 - (4). The general location of the proposed operation in relation Borough streets and state highways, including any accesses to those streets and highways.
 - b. Each logging plan shall include a site map containing the following information:
 - (1). Site location and boundaries, including both the boundaries of the property on which the timber harvest will take place and the boundaries of the proposed harvest area within that property.
 - (2). Significant topographic features related to potential environmental problems.
 - (3). Location of all earth disturbance activities (e.g., roads, landings and water control measures and structures).
 - (4). Location of all crossing of waters of the Commonwealth.
 - (5). The general location of the proposed operation to Borough streets and state highways, including any accesses to those streets and highways.
6. Compliance with State Laws and Regulations. The logging plan shall address and comply with the requirements of all applicable state laws and regulations, including, but not, limited to, the following:
 - a. Soil Erosion and Sedimentation control regulations and standards of the County Conservation District and/or PA DEP requirements.
 - b. Stream crossing and wetlands protection regulations of PA DEP and/or the U.S. Army Corps of Engineers.
7. Relationship of State Laws, Regulations, and Permits to the Logging Plan. Any permits required by state laws and regulations shall be attached to and become part of the logging plan. A soil erosion and sedimentation control plan that satisfies the requirements of Section 25 Pennsylvania Code, Chapter 102 shall also satisfy the minimum requirements for the logging plan and associated site map, provided that all information required by these subsections is included or attached.
8. Responsibility for Road Maintenance and Repair; Road Bonding. The landowner and/or the operator shall be responsible for repairing any damage to Borough streets caused by traffic

Section 1107. Additional Supplemental Standards and Requirements for Specific Principal Miscellaneous Uses.

- A. Telecommunication Signal Site: Telecommunication signal sites are permitted subject to the following criteria:
1. Applications for the construction of telecommunication antennas, support structures, and related facilities shall include a written report containing the following:
 - a. Information describing the tower height and design.
 - b. A cross section of the structure.
 - c. Engineering specifications detailing construction of tower, base, and guy wire anchorage.
 - d. Information describing the proposed painting and lighting schemes.
 - e. Information describing the tower's capacity, including the number and type of antennas that it can accommodate.
 - f. All tower structure information shall be certified by a qualified professional engineer licensed and registered to practice in the Commonwealth of Pennsylvania.
 - g. Certification that there is not suitable space on existing sites or structures where the intended facility can be accommodated and function as required without reasonable modification.
 - h. Technological evidence that the facility must go where proposed in order to satisfy its function in the grid system and provide the quality of service required by law.
 - i. Written authorization from the property owner of the proposed site.
 - j. Inventory of existing towers and potential antenna support structures within a two (2) mile radius of the proposed site, discussing the unavailability of sites and reasons therefore.
 - k. Evidence of the applicant's good faith efforts to locate the antenna on an existing structure.
 - l. Applicant shall demonstrate that they are licensed by the FCC to operate a telecommunications tower and/or telecommunications antenna.
 2. Telecommunication towers and related buildings shall not be permitted in the Residential Zoning Districts or and the Mixed Use Zoning Districts.
 3. Telecommunication antennas located in the Residential Zoning Districts and Mixed Use Zoning Districts shall employ "stealth" siting and design solutions.

Use

PART 11-26
Regulations

4. All other uses ancillary to the antenna, tower, and associated equipment are prohibited, except accessory equipment buildings, unless otherwise permitted in the applicable zoning district in which the site is located. This includes, but is not limited to, business offices, maintenance depots, and vehicle storage.
5. Any utilities extended to the tower site shall be placed underground.
6. Other standards of approval for antenna support structures and antenna-related facilities include the following:
 - a. Setbacks requirements:
 - (1). Antenna support structures shall be set back from all lot lines a distance equal to the height of the antenna.
 - (2). The structure shall be self-collapsing or have a clear fall area setback equal to the height of the structure and any attached antennas.
 - b. Antenna support structure height is subject to the following criteria:
 - (1). The maximum height of any single antenna support structure located at on a single site for one (1) antenna shall be at the lowest height to function at the proposed location, based upon specific engineering data pertaining to the function of the antenna support structure, to be supplied to the applicant.
 - (2). An antenna support structure may exceed the maximum allowable height to allow for the collocation of another antenna, provided that the applicant shows evidence that the antenna support structure will be a shared location site.
 - c. Landscaping and screening are subject to the following criteria:
 - (1). If the antenna support structure site is located in an area of existing trees and vegetation, the existing trees and vegetation shall be in accordance with Part 7 of this Chapter relating to *Landscaping & Vegetation Preservation*, preserved to the maximum extent feasible to keep the area as close as to its original condition. The existing trees and vegetation shall be supplemented as needed to fully screen the antenna support base.
 - (2). If the site lacks adequate trees and vegetation, the entire perimeter of the fence surrounding the antenna support structure compound shall be in accordance with Part 7 of this Chapter relating to *Buffer and Screening Regulations*, provided with screening with no less than ninety (90) percent opacity.
 - d. Equipment or accessory buildings for towers. Accessory buildings must conform to the applicable building requirements for the applicable zoning district in which the tower is located.
 - e. Security, maintenance, and fencing are subject to the following criteria:

Wormleysburg Borough Zoning Ordinance
Adopted – January 8, 2013

PART 11-27

Specific Use Regulations

- (1). The site shall be completely enclosed by a minimum eight (8) foot high fence with a self-locking gate, or the climbing apparatus shall be fully contained and locked within the tower structure.
- (2). All guy wires shall be clearly marked so as to be visible at all times and shall be located within the fence enclosure.
- (3). All equipment and buildings must comply with Borough building, health, safety, property and other applicable local ordinances.

f. Lighting and signs are subject to the following criteria:

- (1). No signs shall be mounted on a telecommunications tower except as may be required by the Federal Communications Commission (FCC), Federal Aviation Administration (FAA), or other governmental agency which has jurisdiction.
- (2). All telecommunications towers shall have lights as may be required by the FCC, FAA, or other governmental agencies which have jurisdiction. If lighting is not required by other agencies, then lighting acceptable to the Borough shall be required.

g. Antenna support structures shall be painted in the color that best allows it to blend into the surroundings unless otherwise required by the FAA regulations. The use of grays, blues, and greens may be appropriate.

- (1). Antenna support structure design and structural integrity. The owner of the antenna or antenna support structure shall provide a report documenting that the structure meets the structural standards of the Chapter 5 relating to code enforcement, prepared by a qualified professional engineer licensed and registered to practice in the Commonwealth of Pennsylvania.

h. Other Provisions.

- (1). Prior to issuance of a zoning permit for the erection of an antenna or antenna support structure, the applicant shall obtain any required land development approvals.
- (2). A formal land development plan is not required if the antenna is to be mounted on an existing structure.
- (3). Evidence shall be submitted from a qualified professional engineer licensed and registered to practice in the Commonwealth of Pennsylvania certifying that the proposed installation will not exceed the structural capacity of the building or structure, taking into consideration winds and other loads associated with location.
- (4). The applicant, owner, or operator of the antenna shall be licensed by the FCC.
- (5). The tower shall comply with all applicable FAA and PennDOT Bureau of Aviation regulations.
- (6). Certification of insurance evidencing general liability in the minimum amount of \$1,000,000 per incident and property damage coverage in the minimum
